TOWN SURVEYS

Report No. 12

Selectmen,
Jaffrey, N. H.

Gentlemen:

The following is a summary of work done during 1946 of surveys of the Town Roads and the Town Boundaries with an appropriation of $500.00.

The survey of Peterborough Street was continued from the end of former surveys, near the residence of Mrs. Lucy Gentsch to Cheshire Village and continues over the road by the Catholic Cemetery to East Main Street, making a closed circuit.

A taped traverse was made from the stone marker at Jaffrey-Troy-Marlboro corner Northerly on the Marlboro line to the end of the wall a little West of the Stowell Road crossing and closed on the Stowell Road survey. The survey of Stowell Road was completed to the Town line near the old Shaker Place and this survey line was continued along the Town line to the Northwest corner of the Town of Jaffrey, thence easterly on the Town line to the stone post at Jaffrey-Dublin-Marlboro corner. This line was not tied in or closed so I will not report the length of the boundary between Jaffrey and Marlboro.

A stadia survey to connect previous private surveys was made of parts of McCoy Road and the Old Dublin Road which passed the McCoy farm.

A closed circuit was made from the Mountain stream crossing on River Street, Southerly to the Town line, thence Easterly on the Rindge-Jaffrey line to the Boston and Maine Railroad and then Northerly along the railroad to East Main Street.

All closed surveys were computed, checked and adjusted.

Additional surveys were plotted on the cloth mounted sheets on a scale of one inch equal forty feet but no new sheets were made, the total being seventy in the set.

Plotting was also made on sheets to a scale of one inch equal two hundred feet and two new sheets were started, this set now consists of twenty-three sheets of which sixteen are cloth mounted.

Following is the length of traverses taped during 1946.

Peterborough Street	1,756 feet
Hillcrest Road	3,006 feet
Stowell Road	4,622 feet
Jaffrey-Marlboro, South end	4,898 feet
Jaffrey-Marlboro, North end	1,680 feet
River Street	5,533 feet
Boston & Maine R. R.	8,470 feet
Jaffrey-Rindge line	1,746 feet
Jaffrey-Marlboro, North side	1,888 feet
Total	33,599 feet

Respectfully submitted,
ARTHUR S. BUSS,
Surveyor.

The following resolution was adopted:

Whereas, we, the voters of Jaffrey, New Hampshire, in annual town meeting assembled this twelfth day of March, 1946, have learned with astonishment that the proposed Flood Control Dam on Mountain Brook in Jaffrey is to be constructed in such a manner as to prevent its use, without major reconstruction, for reservoir purposes; and

Whereas, We recognize that under present Federal laws such water conservation is unauthorized, but we believe that ultimately the best interests of the town, the state and the nation will require multiple use of such areas not only for flood control but for regulation of stream flow for development of power, either public or private; for elimination of stream pollution and for other purposes; now, therefore, be it

Resolved, That we hereby urge upon all those in authority in the construction of Mountain Brook Flood Control Dam in Jaffrey to use every effort to bring about such changes in the plans for said Dam as to allow all beneficial uses of the same as future knowledge and needs may develop; and be it further

Resolved, That the Town Clerk be instructed to send copies of this resolution to United States Senators Charles W. Tobey and Styles Bridges; to Representative in Congress Sherman Adams; to Governor Charles M. Dale of New Hampshire; to the office of the Corps of Army Engineers of District No. 1 at Boston, Massachusetts and to the Federal Power Commission in Washington, D. C.

Art. 25. State Tax Commission Audit. It was voted to pass over this article.

Art. 26. Lights on Peterborough Street. See Art. 5.

Art. 27. Employe's Retirement System. It was voted to defer action under this article until the adjourned meeting on May 7, 1946.

Art. 28. Collection of Garbage. It was voted to pass over this article.

Art. 29. Sale of Land on Monadnock Mountain. It was voted not to sell the land on Monadnock Mountain owned by the town.

The meeting adjourned at 7.35 P. M. until May 7, 1946 at 8.00 P. M.

A true abstract. Attest:

GEORGE H. DUNCAN,
Town Clerk.

ADJOURNED TOWN MEETING

May 7, 1946

In accordance with the action of the annual town meeting held on March 12, 1946, the adjourned town meeting was called to order by Jason C. Sawyer, Moderator, on Tuesday, May 7, 1946 at 7:30 P. M.

Article 12. Land on Blake Street.

Ralph E. Boynton moved, that the Town authorize the Selectmen to purchase a tract of land from the Boston & Maine Railroad Company, on Blake Street, east of the town garage, consisting of an area of approximately 6,300 square feet and raise and appropriate the sum of $1,000. to pay for the same.

Mrs. Clara Hillsmith inquired as to the need for the purchase; and Mr. Boynton explained that this land is needed to allow the town to enter the garage without trespassing.

The motion was then adopted.

Article 14. Airport Committee.

Kauko Walkonen, chairman of the committee appointed at the annual town meeting, reported that it has been impossible to make an extensive survey, owing to inability to secure engineers. It is necessary, in order to secure approval of an air strip, that it be at least 2,000 feet long and 300 feet wide, without interference with approaches. The following sites have been examined: the former C.C.C. camp site just over the line in Rindge, owned by the State Forestry Department, which might serve both Rindge and Jaffrey; land owned by Robert P. Bass, Peterborough, in the easterly part of the town near the farm of Charles Jurva, which might serve both Peterborough and Jaffrey; the so-called "Old Parade Ground" west of Jaffrey Center. Representatives of the State Aviation Commission have looked over all these sites.

Anne B. Gordon moves that the report be accepted as a report of progress and that the committee be continued with instructions to make a further report to the next annual town meeting. The motion was seconded.

Philip M. Darling pointed out the need for prompt action, in view of the pending legislation in Congress which provides that, in the development of such air strips, the federal government will provide 50% of the cost, the state 25% and the town 25%. As the funds thus to be provided are severely limited, it is probable that those communities which take early action will be those to receive assistance in development. He presented a substitute motion for consideration, which later was offered (see below). The proposal being for a town appropriation of $5,000, indicating an expense of $20,000 in all, Mrs. Clara Hillsmith asked how much extra expense might be looked for.

Philip M. Darling explained that no estimate of total expense could be made at this time. The situation is similar to that as regards highways, which have been improved over the years as occasion and added needs indicate.

Anne B. Gordon, by unanimous consent, withdrew her motion.

Philip M. Darling moved that the Airport Committee be authorized, with the advice of the New Hampshire State Director of Aeronautics, to select an airport site, to proceed with the purchase and development of the same; and that the Town raise and appropriate a sum not exceeding $5,000 for the purpose.

Mrs. Virginia A. Gilchrist inquires as to the need of this development.

Kauko Walkonen explains that, under the plans of the Civil Aeronautics Board, it is intended to plan for an air strip within ten miles of each community. The nearest airfields now are at Keene, Athol, Mass., Fitchburg, Mass., Nashua and Manchester. Thus Jaffrey is near the center of the presently unserved area. It is not expected

that the proposed airstrip here will be used by the larger airliners; but it is likely, since all the younger generation are air-minded, that within a few years there will be many smaller private airplanes owned; that several of Jaffrey summer residents will commute from their city homes to this vicinity when adequate landing facilities are available.

Donald K. Sawtelle deplores immediate action in view of the action of the Town at the March meeting in delaying all except essential expenditures.

George P. Duncan suggested that, inasmuch as all rail passenger service to the Town will cease on Friday, May 10, owing to the embargo made necessary by the existing coal strike, it may be "later than we think."

The motion then was adopted.

Article 27. Employees' Retirement System.

Charles M. Mills moved that the Town appropriate the sum of $150.00 for the purpose of providing funds for the Town's contribution to the Employes' Retirement System for 1946, as provided by Chapters 185 and 201, Laws of 1945.

Anne B. Gordon inquires as to the need for this appropriation.

Charles M. Mills explains that one town employee desires to take advantage of the state retirement plan; that it is understood that the Town's contribution is to be 6% of the employee's wages, to be matched by a similar contribution by the employee; and that, the undertaking having been entered into by the Town, an annual appropriation must be made to meet the requirements.

The motion was then adopted.

Lewis S. Record called attention to the action of the Town under Article 19 of the warrant, providing that the Moderator should appoint a committee to investigate and report at this adjournment on the advisability of holding a Welcome Home day for returning veterans.

The Moderator confessed that he had neglected to appoint such committee.

Delcie D. Bean repeated his views, as given at the annual meeting, that the Town should make no appropriation for this purpose but feels that the project should be kept alive by the appointment of the committee.

Donald K. Sawtelle, a veteran, expressed the view that he already has been welcomed by his friends, and desires no formal celebration.

Kauko Walkonen, a veteran, agrees with Mr. Sawtelle, and suggests that the veterans, through their organizations, be consulted as to what form of recognition should be given.

Ferdinand D. Gordon, a veteran, favors omitting a formal celebration.

Delcie D. Bean, Jr., a veteran, moved that the meeting do now adjourn; the motion was carried and the Moderator declared the meeting adjourned, sine die, at 8:40 P. M.

A true record. Attest:

GEORGE H. DUNCAN,
Town Clerk.

Vernon J. Bean offered an amendment to this motion, "to increase the amount for salaries of the School Board to $120.00, to take care of the salaries of the three new members of the School Board, thus making a total appropriation of $165.00 instead of $105.00." This amendment was seconded and carried. The motion was seconded and carried as amended.

Article 6. Lewis S. Record explained the expenditure of the "Durant Fund" and referred to the printed report.

Vernon J. Bean asked if that amount was for the burner only. Ernest Pratt said it was for the burner and some other equipment which he explained in detail.

Ferdinand D. Gordon asked about the housing and whether additions would be made in the future.

Alex Calder, George S. Austermann and Edward L. Fay questioned if oil would heat the school rooms any better than coal and if the price of $3,000.00 was excessive.

Philip M. Darling asked if the burner would be large enough to care for additional rooms.

Vernon J. Bean offered an amendment to the motion that an investigation of light type of oil burner be made before purchasing one for heavy oil.

The motion was carried as amended.

Article 10. Dr. C. Francis Wozmak moved that the Moderator be instructed to appoint a committee of five to study the housing needs of the Jaffrey School system, and that said committee report their findings at the next School District meeting, and the District raise and appropriate the sum of $500.00 to cover the expense of such study. Vernon J. Bean suggested that Article 3 and Article 13 be combined. Philip M. Darling objected.

An amendment was presented by Donald K. Sawtell to have the School Board act as a committee instead of five being appointed by the Moderator. This amendment was lost.

The original motion of Dr. C. Francis Wozmak's was seconded and carried. The Moderator appointed Gerald H. Faunce, Ralph E. Boynton, James B. Perry, Evelyn F. Ruffle and Alfred S. Despres.

Article 11. Anne B. Gordon moved that the District vote to raise and appropriate the sum of $500.00 for swings, slides and other playground equipment for the Grade School. The motion was seconded and carried.

Article 14. Dr. C. F. Wozmak moved that the committee appointed to study the housing needs of the school system be authorized and directed to consider the question of additional land for the use of Conant High school and make a report with recommendations at the next school meeting.

The motion was seconded and carried.

This committee consists of those persons chosen under Article 10.

Voted to adjourn at 9:20 p. m.

B. Administrative Problems

In this report no effort is made to give other than statistical information regarding schools prior to July 1, 1946, the date of the change in superintendents. The two major problems facing the school boards and superintendent in this Supervisory Union this present school year were, and still are, (1) The procurement of competent teachers to fill vacancies and (2) the immediate and long term improvement of badly deteriorated school buildings and equipment. Problems of slightly less magnitude but of grave importance that have already received much careful attention and need much further study are (1) guidance of teachers lacking experience and/or training toward more efficient instructional procedures; (2) the development as a cooperated effort of teachers, superintendent, interested laymen, and school boards of a more wisely planned educational program; (3) the procurement of properly selected instructional material; (4) the improvement of wartime deteriorated pupil transportation facilities (5) improvement of pupil records and accounting; (6) the development of a less time consuming and more easily understood financial accounting system; (7) the development of a better informed public opinion regarding local educational problems and conditions. Some of these problems will be discussed under the appropriate sections of this report.

In Part I of this report it was stated that the procurement of competent teachers is one of the major problems of the school administration this year. Of the eight vacancies at the end of the school year in

the spring of 1946, three had been filled prior to July 1. Since then the following five have been filled: commercial, Jr. High science, home economics, and science and coach at the high school, and grade 5-B at the grade school. It took many days of diligent search and considerable travel for this accomplishment. Three of these five teachers are without prior teaching experience. It is exceedingly important that every effort be made to retain those teachers who have demonstrated their competance. Reasonable salaries—not at a cost of living level, liberal sick leave provisions, suitable instructional equipment, and decent living and employment conditions will figure strongly in holding the kind of teachers who will give Jaffrey boys and girls the guidance and help they most need.

B. Instructional Materials

At the beginning of the present school year, careful study and discussion by the Grade School teachers and the Superintendent resulted in a decision to inaugurate a plan for modernizing the reading system and related activities in grades 1 through 6. New basal reading books, work books, charts and cards, arithmetics, spelling books, science books, social studies books and health books for the lower and intermediate grades were purchased. At the high school Spanish was dropped as a subject in the curriculum and general science for the ninth grade and a half-year course in psychology for seniors have been added. Several new text book adoptions have been made.

Other obligations including Durant fund	5,505 00	
		8,749 00
Total amount required to meet School Board's budget		$86,344 00

ESTIMATED INCOME OF DISTRICT

Federal aid, July 1947	150 00	
Dog tax	600 00	
Income from trust funds	5,000 00	
High school tuition receipts	1,500 00	
Other income, rent of hall	150 00	
Deduct total estimated income (above items)		7,400 00
Assessment required to balance School Board's budget		$78,944 00
Special appropriation proposed (articles in warrant)		
New equipment	$500 00	
District employees' retirement	305 00	
Teachers' salary adjustment for 1946-47	3,600 00	
Current obligations for 1946-47	8,122 00	
		$12,527 00
Total assessment required to cover budget and appropriations		$91,471 00

Several of the above items deserve brief explanations. Let us consider first the largest item in any school budget: teachers salaries. Although the estimate of $54,000 for this item for 1947-48 is nearly $12,000 larger than last year's comparable estimate printed in the annual report, it is thought that no more is being requested than will be needed for Jaffrey to compete successfully with neighboring communities in New Hampshire and Massachusetts for the retention and procurement of competent teachers. The present teachers' contracts total $44,438. If to this is added the $3,600 being asked for in a special article of the warrant so that each teacher may receive an adjustment for the current year as so many districts are doing, and $430 estimated for substitute teachers is included, this year's actual expenditures will total $48,468.

The item for transportation has been increased from $5,600 to $7,000 with the idea that all pupils, high and elementary, living beyond the end of the village sidewalks should be transported at district expense.

This year the Durant Fund item of $2,500 that receives special accounting is included in the item "Other Obligations, including Durant Fund" under expenditures and in the item "Income from Trust Funds" under income. Already a separate column in the ledger is being used for this item in order to insure accurate accounting for it. The balance of $3,005 under "Other Obligations" includes $375 for insurance and treasurer's bond, $1.230 for teachers' and superintendent's retirement fund, and $1,400 for expenses of administration.

The special request of $9,400 for "Current Obligations for 1946-47" may be broken down into two items. For some years it has been customary for Jaffrey teachers to receive one-sixth of their annual salary in July and August following the completion of their work the previous June. In July and August 1946 that practice was followed. As the fiscal year of the schools is July 1 to June 30, it is believed to be advisable to pay all obligations of a school year prior to closing the books on June 30. In order to accomplish this $7,406.33, one-sixth of $44,438, will be needed to permit the teachers to receive their contracted salaries by June 30, 1947. The balance of $1,993.67 is more than accounted for by the cost of the increased amount of insurance that has been placed on the school buildings. Other over-runs have been off-set by savings.

Ernest B. Dana

It is my privilege to submit herewith my sixth (first since discharged from the U. S. Army) annual report as headmaster of Conant Junior-Senior High School.

Teaching Staff

With the continuance of critical shortages and the resulting accelerated turn-over of teachers during the past year, we are indeed fortunate to secure and maintain on our faculty well trained, experienced and efficient teachers. The names of the present staff with the respective subjects taught follow: Asterisks indicate changes over the year 1945-46.

*Mr. Ernest B. Dana	Headmaster, Mathematics, Psychology Consumer Buying
Mr. Charles E. Chamberlain	Mechanic Arts

Enrollment and Attendance

The total number of pupils enrolled to date, January 20, 1947, is 159 in the high school and 98 in the junior high school. A breakdown of the enrollment by sex and grade follows:

Grade	7	8	Total	9	10	11	12	P.G.	Total
Boys	24	26	50	18	19	29	25	3	94
Girls	22	26	48	22	11	15	17	0	65
Total	46	52	98	40	30	44	42	3	159
Total in Junior-Senior High School									257

The attendance record of 96.37% for the past year shows a definite improvement over the lower records experienced during the past few years and should compare favorably with the state average. The number of tardinesses, however, of 1.8 per pupil for the same period is high. This loss of time on the part of our pupils results in both a serious educational and economic loss. It is extremely urgent that parents assume more responsibility in assuring prompt and regular attendance on the part of their children in order that the school's record and standing may be maintained and improved.

Miscellaneous

During the past year the extra curricular activities have included successful class plays, dances, prize-speaking and athletics. In basketball the girls' team again had an undefeated season, winning the Monadnock League Championship. The boys in this same sport were the champions for the second successive year in the Small High School Tournament at Fitchburg. A wonderful testimonial dinner was given to the members of both teams by the townspeople at the close of the season. In baseball the boys won the League Championship.

Under the leadership of our vocal instructor, Mr. Arthur T. Coogan, much has been accomplished in music. The operetta presented in May was an outstanding event greatly enjoyed by the community.

With Mr. Edward Hamilton as instructor of instrumental music, notable progress has been made in developing a school band. This group gave an excellent account of itself at both the Memorial Day and Commencement Exercises.

The addition of another teacher to the faculty has made possible an assignment of subjects so that the English is now divided between two teachers, each having three grades. This arrangement has contributed much in the solution of the English problem. Each grade is divided into two classes according to their needs and interests. In this way, there is much greater opportunity for adaptation of technique and content to the group and for more individual attention.

Generally speaking, the installation of the oil burner has resulted in a much more satisfactory and uniform distribution of heat. Regardless of the actual fuel cost as compared with that of previous years, the advantages which accrue from greater comfort and satisfaction for both the teachers and the student body alike should result in an overall economy.

The Future

In order that the boys and girls of Jaffrey may have a high school education comparable to the standards recognized in the state and nation, two primary considerations are of immediate concern, namely, (1) the serious teacher shortage, and (2) the urgent need for more adequate space and facilities. Both of these problems were included in last year's report, the latter being discussed in detail and to some length. With no indications of alleviation in the scarcity of teachers in sight, plus the steadily increasing enrollment of pupils at Conant

High School, positive action becomes ever more urgent. In the light of these facts the importance of securing and maintaining a faculty of interested, efficient and veteran teachers takes on added significance. To accomplish this, and to meet the keen competition from other communities in offering more attractive inducements to teachers, means that the present salaries will have to be substantially increased and a progressive and equitable salary scale established. However, even with superior instruction, adequate space and facilities must be provided in such subject fields as Commerce, Physical Sciences, Home Economics, Industrial Arts, Physical Education and Assembly to assure the provision of educational opportunities equal to those enjoyed by the majority of youth in our country.

It is hoped that as the present building committee continues further study of these existing building needs, it will be able to submit a detailed report with definite and feasible recommendations at the annual school meeting in March of the current year.

In conclusion, I wish to express my gratitude to the Superintendent of Schools, the teachers and pupils of Conant High School, the School Board, and the citizens of Jaffrey for their support and co-operation upon my return as headmaster, after a leave of absence of over three years spent in the U. S. Army. It is indeed gratifying to be working again with Jaffrey friends for an ever better high school education for our boys and girls.

GEORGE H. DUNCAN, Town Clerk.

HELP YOUR FOREST FIRE WARDEN PREVENT FIRES—IT PAYS!

The prevention of forest fires is the most important and difficult part of the work of your forest fire warden who heads a local organization set up primarily for the security of your community's forest property. The importance and value of the work of the forest fire warden and his deputies is, perhaps, best appreciated during hazardous periods when fire danger is greatest. The public, however, looks to him at all times for speedy and economical suppression of going fires

To property fulfill his mission, the warden needs the generous and understanding cooperation of the public at large. He attempts to secure this cooperation by the posting of caution notices, news items and by word of mouth, always carefully explaining the necessity of restrictions imposed. In the matter of giving cooperation, however, the public often fails. The record shows that an average of 7,300 acres of woodland are burned over by forest fires in New Hampshire each year. Analysis of fire causes reveal the fact that more than 98 percent of all forest fires are, consistently, the result of human carelessness and are preventable.

The careless smoker fails to properly extinguish his cigar, cigarette or pipe ashes or thoughtlessly throws them from the car window; the debris burner fails or refuses to consult the warden, as the law requires when the ground is not covered with snow, before attempting to burn; campers fail to properly extinguish their fires or frequently build fires when conditions are unfavorable.

Remember these rules:

1. Use ordinary common sense with fire in and near woodland.
2. Comply with requirements on the use of fire in and near woodland and when the ground is not covered with snow, secure written permission to burn from the forest fire warden.
3. Be careful when smoking in or near woodlands. Don't throw lighted material from moving vehicles.
4. Cooperate with and assist the warden and urge others to do so.
5. HELP YOUR FOREST FIRE WARDEN PREVENT FIRES—his efforts are only as effective as is the cooperation you give him!

F. J. BAKER,
District Fire Chief.
